CHAIRMAN'S REVIEW

I am presenting my review as the Chairman of the Company for the year ended 30 June 2021, highlighting the Company's performance, issues and the role of the Board of Directors in guiding the management to carry out its responsibility for the benefit of all its stakeholders

The economy which was impacted last year due to the external business environment and COVID continued to suffer during the year; as internal management disputes created by Government Nominated ex-MD PECO, Mairaj Anees Ariff were getting stronger and stronger. This fiscal year was also badly impacted by management disputes and austerity measures due to fiscal reforms, higher interest rates, lower demands and bad affect by the COVID-19 pandemic on world economy. Due to unprofessional approach and illegal/unlawful actions of Government Nominated ex-MD PECO, Mairaj Anees Ariff, the operations of the Company came to complete halt since April 2021 which was duly reported to Government of Pakistan and relevant regulatory authorities of Pakistan.

The financial results for the year reflect a negative trend as follows:

- Net Sales decreased to Rs. 183.30 million
- Gross Loss of loss of Rs 183.33 million
- Loss after tax increased to Rs. 310.52 million
- Earnings per share decreased to Rs. 54.57 per share

During the year under review, the Board has tried its level best to perform its duties and responsibilities diligently and has contributed effectively in guiding the Company in all its strategic affairs. Despite all obstacles, the Board also tried its level best for a key role in monitoring of management performance and focus on major risk areas. During the last two quarters of this financial year; the Board took various initiatives which include not only holding of elections of directors but also started convening quarterly Board meetings; despite of illegal/unlawful actions of Government Nominated ex-MD PECO, Mairaj Anees Ariff.

In April 2021, the previous Board completed its tenure and a new Board was elected for three years. I would like to thank the retiring Board members for their contribution. The deceased director, Mr. Liaqat Mohmmad has been replaced by Mr. Iftikhar Hussain. During the year under review, despite of his removal in December 2018, Government Nominated ex-MD PECO, Mairaj Anees Ariff, unlawfully, didn't allow any Board member to enter into the company premises neither enable them to hold any meetings of sub-committees of the Board.

The Board recognizes that well defined corporate governance processes is vital in enhancing corporate accountability and is committed to ensure high standards of corporate governance to preserve and maintain stakeholder value. The Board is aware of the current and future challenges, as we focus our effort towards resolving the on-going issues of the Company created by Government Nominated ex-MD PECO, Mairaj Anees Ariff.

We remain dedicated to our core values and strive to maintain long-term relationships with all stakeholders. With an experienced Board of Directors and committed Management Team that were not allowed to enter into the company premises for performing their professional duties, we remain equipped to meet the continuing challenges.

The Board would like to thank all stakeholders for their support and loyalty. Your faith in these challenging times has allowed us to meet challenges and resolve the on-going management issues of the Company. The Board of Directors and Senior Management of the Company took all necessary steps to keep the stakeholders on-board regarding situation of Company from time to time.

We continue to pray to Allah for an early resolution of the issues prevailing in the Company for the benefit of all stakeholders, as well as for Pakistan in general.

چیمبر مین کا جائزہ

میں 30 جون 2021 کو ختم ہونے والے سال کے لیے کمپنی کے چیمبر مین کی حیثیت سے اپنا جائزہ پیش کر رہا ہوں، جس میں کمپنی کی کارکردگی، مسائل اور بورڈ آف ڈائریکٹرز کے کردار کو اجاگر کیا گیا ہے کہ وہ انتظامیہ کی رہنمائی کریں تاکہ تمام اسٹیک ہولڈرز کے فائدے کے لیے اپنی ذمہ داری نبھائی جاسکے۔

گزشتہ سال بیرونی کاروباری ماحول اور کووڈ-19 کے اثرات سے متاثر ہونے والی معیشت رواں سال بھی متاثر رہی؛ کیونکہ حکومت کی نامزد کردہ سابق ایم ڈی PECO، معراج انیس عارف کی طرف سے پیدا کیے گئے اندرونی انتظامی تنازعات بڑھتے چلے گئے۔ اس مالی سال میں انتظامی تنازعات اور کفایت شعاری کے اقدامات، مالیاتی اصلاحات، بلند شرح سود، کم طلب اور کووڈ-19 کی وبا کے عالمی معیشت پر منفی اثرات کی وجہ سے بھی شدید اثرات مرتب ہوئے۔ حکومت کی نامزد کردہ سابق ایم ڈی PECO، معراج انیس عارف کے غیر پیشہ ورانہ رویے اور غیر قانونی اقدامات کے باعث اپریل 2021 سے کمپنی کی کارروائیاں مکمل طور پر معطل ہو گئیں، جس کی باقاعدہ اطلاع حکومت پاکستان اور پاکستان کے متعلقہ ریگولیٹری اداروں کو دی گئی۔

سال کے مالی نتائج منفی رجحان کی عکاسی کرتے ہیں:

خالص فروخت کم ہو کر 183.30 ملین روپے رہ گئی۔

مجموعی نقصان 183.33 ملین روپے۔

ٹیکس کے بعد نقصان بڑھ کر 310.52 ملین روپے ہو گیا۔

نی شیئر آمدنی کم ہو کر 54.57 روپے فی شیئر رہ گئی۔

جائزہ شدہ سال کے دوران، بورڈ نے اپنی ذمہ داریاں دیا ننداری سے انجام دینے کی پوری کوشش کی اور کمپنی کے تمام اسٹریٹجک امور میں موثر رہنمائی فراہم کی۔ تمام رکاوٹوں کے باوجود، بورڈ نے انتظامیہ کی کارکردگی کی نگرانی اور بڑے خطرات والے شعبوں پر توجہ مرکوز کرنے میں بھی کلیدی کردار ادا کرنے کی کوشش کی۔ مالی سال کے آخری دو سہ ماہیوں کے دوران، بورڈ نے متعدد اقدامات کیے جن میں نہ صرف ڈائریکٹرز کے انتخابات کا انعقاد شامل ہے بلکہ غیر قانونی اقدامات کے باوجود، حکومت کی نامزد کردہ سابق ایم ڈی PECO، معراج انیس عارف کی جانب سے، بورڈ کے سہ ماہی اجلاس بھی بلائے۔

اپریل 2021 میں، پچھلے بورڈ نے اپنی مدت پوری کی اور ایک نیا بورڈ تین سال کے لیے منتخب ہوا۔ میں سبکدوش ہونے والے بورڈ ممبران کا ان کی خدمات کے لیے شکریہ ادا کرنا چاہوں گا۔ مرحوم ڈائریکٹر، لیاقت محمد کی جگہ افتخار حسین نے لے لی۔ سال کے دوران، معراج انیس عارف، جو دسمبر 2018 میں ہٹا دیے گئے تھے، نے غیر قانونی طور پر کسی بھی بورڈ ممبر کو کمپنی کے احاطے میں داخل ہونے کی اجازت نہیں دی اور نہ ہی انہیں بورڈ کی ذیلی کمیٹیوں کے اجلاس منعقد کرنے کا موقع دیا۔

بورڈ تسلیم کرتا ہے کہ اچھی طرح سے وضع شدہ کارپوریٹ گورننس کے عمل کارپوریٹ احتساب کو بڑھانے کے لیے بہت اہم ہیں اور وہ اسٹیک ہولڈرز کی قدر کو برقرار رکھنے کے لیے اعلیٰ معیارات کو یقینی بنانے کے لیے پرعزم ہے۔ ہم موجودہ اور مستقبل کے چیلنجوں سے آگاہ ہیں اور ان مسائل کے حل کے لیے اپنی کوششوں پر توجہ مرکوز کیے ہوئے ہیں جو معراج انیس عارف کی وجہ سے پیدا ہوئے۔

ہم اپنے بنیادی اقدار کے لیے پرعزم ہیں اور تمام اسٹیک ہولڈرز کے ساتھ طویل مدتی تعلقات برقرار رکھنے کی کوشش کرتے ہیں۔ ایک تجربہ کار بورڈ آف ڈائریکٹرز اور پرعزم مینجمنٹ ٹیم کے ساتھ، جو اپنے پیشہ ورانہ فرائض انجام دینے کے لیے کمپنی کے احاطے میں داخل ہونے کی اجازت نہیں دی گئی، ہم جاری چیلنجز کا مقابلہ کرنے کے لیے تیار ہیں۔

بورڈ تمام اسٹیک ہولڈرز کا ان کے تعاون اور وفاداری کے لیے شکریہ ادا کرنا چاہتا ہے۔ ان مشکل وقتوں میں آپ کے اعتماد نے ہمیں چیلنجز کا مقابلہ کرنے اور کمپنی کے جاری انتظامی مسائل کو حل کرنے کی اجازت دی۔ کمپنی کے بورڈ آف ڈائریکٹرز اور سینئر مینجمنٹ نے کمپنی کی صورت حال کے بارے میں اسٹیک ہولڈرز کو وقتاً فوقتاً آگاہ رکھنے کے لیے تمام ضروری اقدامات کیے۔

ہم اللہ تعالیٰ سے دعا کرتے ہیں کہ وہ کمپنی میں موجود مسائل کو جلد حل کرے تاکہ تمام اسٹیک ہولڈرز اور پاکستان کے مفاد میں بہتری ہو۔

DIRECTORS' REPORT To The Shareholders

The Directors of Pakistan Engineering Company Limited are presenting the 72nd Annual Report accompanied by the audited financial statements for the year ended June 30, 2021; after a lapse of almost four years.

GLOBAL STEEL SCENARIO AND PAKISTAN'S ECONOMY

The global steel prices hit a record high this year. Hot rolled coil prices reached \$1,100 per ton in June 2021 compared with \$430 per ton in July 2020. Iron ore prices, mainly due to supply constraints, peaked \$225 per ton an increase of 3.5 times at the beginning of the year and higher freight costs. Prices witnessed an increase following the withdrawal of 13.5% export rebate provided by Chinese government to its steel industry. Steel industry may see production cuts in China as a result of the government policy to shut down plants with environmental concerns. China continued to lead the global steel market by further increasing its share in the global output to 57% in 2021.

The global steel industry saw a rise in demand and production after ease in shutdowns across the world. Pandemic has also accelerated some key trends bringing about positive shifts in steel demand. The steel sectors experienced a stronger than expected post lockdown rebound in manufacturing activities, attributable in part to substantial government measures that supported consumption and helped durable goods manufacturing.

The developing economies are still struggling to recover from COVID-19, reason being inadequate medical capacity, a collapse in tourism and commodity prices, and insufficient fiscal support.

Pakistan's economic recovery continues. The macro-economic reforms agenda of the current government rendering positive results, despite the COVID-19 crisis. The smart lock down strategy helped to contain the effects of COVID-19.

A broad-based recovery was witnessed in almost all sectors of the economy helping to post impressive growth numbers for the financial year. Though the inflationary pressure remained a matter of concern along with a continuously piling up circular debt, the economy witnessed a V-shaped recovery with 3.94% growth in FY 2021 against the negative growth of 0.47% last year. The economic growth surpassed its target after 15 years.

The large-scale manufacturing gained traction and was up by an impressive 14.90% as compared to the decline of 10.20% last year giving a boost to the business activity across all segments of the economy. Exchange rate appreciated by 6.50% on back of strong remittances, recovering exports and accumulation of dollar in Roshan Digital Account. Record remittances of \$29.4 Billion supported the foreign exchange reserves to surpass \$22.00 Billion at the end of the year. The policy rate remained unchanged at 7% throughout the year. Furthermore, the extension of the payroll financing and introduction of new refinance schemes such as Temporary Economic Refinance Facility (TERF) indicated the central bank's continued emphasis on supporting the recovery through accommodative monetary policy.

Average inflation recorded as high as 8.90% against 10.74% of last year. Political stability supported by the IMF program helped in continuation of the macro-economic reform agenda in the country. Improved FBR collections, globally applauded handling of the COVID-19 pandemic, effective management of the current account balance indicated that the medium-term economic future of the country looks bright and the GDP growth projection of 5% next year looks achievable.

PERFORMANCE OUTLOOK

Management disputes created by Government appointed ex-MD PECO, Mr. Mairaj Anees Ariff despite of his removal in December 2018, continued to surge during this financial year. Government appointed ex-MD PECO, Mr. Mairaj Anees Ariff prevented the Board of Directors, principal officer and other employees, including the statutory positions of Chief Financial Officer, Company Secretary and Head of Internal Audit, from entering the company premises. During this period also, he continued to run the company's affairs by illegally taking under siege control of PECO whereby operations of the Company were put to halt in April 2021.

In this year also, no company accounts could possibly have been prepared or audited, and no Annual General Meeting (AGM) of shareholders could be called. Timely intimations were sent by the Board members to relevant authorities including Ministry of Industries (MoIP) and SECP apprising them of the obstacles faced by the board members and the management, including the statutory positions of Chief Financial Officer, Company Secretary and Head of Internal Audi, in discharging their statutory and operational responsibilities, along with the efforts made by them in their available capacities for resolution of the issues. Despite all obstacles, the Board also tried its level best for a key role in monitoring of management performance and focus on major risk areas.

COMMENTS ON DISCLAIMER OF OPINION IN AUDITOR'S REPORT

i. Going Concern Status

Due to management disputes from October 2018 till March 2023, the operations of Company were getting deteriorated day-by-day. This fact was anticipated by management of PECO well before time and duly communicated to Ministry of Industry and Production in September 2018 along with Securities and Exchange Commission of Pakistan. The management disputes created by Government Nominated ex MD PECO, Mairaj Anees Ariff, took the Company to its lowest ebb during the period mentioned above. However, the management and Board of Directors is trying hard to formulate short and medium term business plans for revival of operations.

ii. Counting of Physical Inventories

Due to management disputes from October 2018 till March 2023, no physical count of the stock could be performed by Government appointed ex MD PECO, Mairaj Anees Ariff and his team. The Board of Directors and the management team used to perform this exercise along with external auditors every year upto June 2018. In absence of record of stock count, the auditors were not able to get sufficient and appropriate audit evidence of stock lying in PECO as on June 30, 2021 of Rs. 306.05 million; because at current date, physical existence of any stock in back dates cannot be possible.

iii. Trade Debtors/Trade and other payables

Since October 2018, PECO's financial system was compromised, with inadequate documentation and no accrual accounting. Vendor ledgers showed incorrect balances, Standard Operating Procedures were ignored, and materials lacked proper documentation. Payments were only made from an unauthorized Faysal Bank account without supporting vouchers whereas no record of payments received from customers could be maintained. This has created significant difficulties in tracking transactions and ensuring compliance with

statutory laws and International Financial Reporting Standards (IFRS). This hindered the verification of closing balances, of trade debtors and trade & other payables, for the year ended June 30, 2021 of Rs. 20.20 million and Rs. 436.93 million respectively.

It was discovered that hard drives from PECO's main data server and from all peers of network were missing. This hindered the verification of closing balances, of trade debtors/trade and other payables, for the year ended June 30, 2018. Despite extensive efforts, only the opening balance as of July 01, 2018, was established.

The management led by Government appointed ex MD PECO, Mairaj Anees Ariff, failed to ensure proper record of financial and operational transactions which took place during the period from October 2018 till October 2022.

iv. Unclaimed Dividends not deposited with Federal Government

Till October 2018, the management and the Board of Directors had started proceedings to comply with section 242 of Companies Act, 2017. For the said purpose, advertisements had been made in daily newspapers as required by Companies Act, 2017 but due to lack of corporate and operation knowledge of Government appointed ex MD PECO, Mairaj Anees Ariff and his team, delayed this matter and did not proceed to pay the amount of un-claimed dividend as per provisions of Companies Act, 2017. However, the current management and the Board is committed to ensure compliance with section 242 of Companies Act, 2017, as soon as the cash flow situation of the Company improves.

v. GoP/PC Loans

The issue of Government of Pakistan and Privatization Commission Loans has been discussed with representatives of GoP, PC and MoF. As a result of various meetings, the principal loan except Rs. 131.454 million (being the additional gratuity paid by Privatization Commission at its own) has been reconciled.

The Board of Directors in its various meetings has resolved that amount due under the law to the Government of Pakistan (GoP) for any loan given to PECO shall be paid. The Board has agreed with GoP to adjust its liabilities by disposal of Badami Bagh Land as decided in E.C.C decision dated 02.03.1993, which according to the recent valuation amounts to Rupees 4,605.13 million and it is in excess of the amount being claimed by GoP from PECO. The Board of Directors (BoD) and the management of the Company believes that they are not liable to pay any interest on these loans in the absence of any agreement.

پاکستان انجینئرنگ کمپنی لمیٹڈ کے ڈائریکٹرز 72 ویں سالانہ رپورٹ بمعہ آڈٹ شدہ مالیاتی بیانات برائے مالی سال جو 30 جون 2021 کو ختم ہوا، تقریباً چار سال کے وقفے کے بعد پیش کر رہے ہیں۔

عالمی اسٹیل منظر نامہ اور پاکستان کی معیشت

عالمی سطح پر اسٹیل کی قیمتوں نے اس سال ایک نیا ریکارڈ قائم کیا۔ جون 2021 میں گرم رولڈ کوائل کی قیمت \$1,100 فی ٹن تک پہنچ گئی جبکہ جولائی 2020 میں یہ \$430 فی ٹن تھی۔ لوہے کی قیمتوں میں سپلائے کی کمی کی وجہ سے \$225 فی ٹن تک اضافہ ہوا۔ چینی حکومت کی جانب سے اسٹیل انڈسٹری کو دی جانے والی 13.5 فیصد برآمدی چھوٹ کے خاتمے سے قیمتوں میں مزید اضافہ ہوا۔ چین ماحولیاتی خدشات کی بنیاد پر کچھ پلانٹس کو بند کرنے کی حکمت عملی کے نتیجے میں پیداواری کمی کا سامنا کر سکتا ہے۔ 2021 میں چین نے عالمی پیداوار میں اپنا حصہ 57 فیصد تک بڑھا لیا۔ عالمی اسٹیل انڈسٹری میں طلب اور پیداوار میں اضافے کے بعد لاک ڈاؤن؟ ان میں نرمی دیکھنے کو ملی۔ اسٹیل سیکٹرز نے لاک ڈاؤن؟ ان کے بعد مضبوط بحالی کا مظاہرہ کیا، جس کا کریڈٹ حکومتی اقدامات کو دیا جاسکتا ہے۔

پاکستان کی معیشت

پاکستان کی معیشت میں بحالی کا سلسلہ جاری رہا۔ موجودہ حکومت کے معاشی اصلاحاتی ایجنڈے کے مثبت نتائج سامنے آئے، حالانکہ COVID-19 کے اثرات کو محدود کرنے کے لیے اسٹارٹ لاک ڈاؤن حکمت عملی اپنائی گئی۔ معیشت کے تمام شعبوں میں بحالی دیکھنے کو ملی، اور مالی سال کے لیے متاثر کن نمو کے اعداد و شمار سامنے آئے۔ افراط زر کے دباؤ کے باوجود، معیشت نے 3.94 فیصد نمو دکھائی جبکہ پچھلے سال 0.47 فیصد منفی نمو تھی۔

کارکردگی کا جائزہ

حکومتی نامزد سابق ایم ڈی، جناب میراج انیس عارف کی جانب سے پیدا کیے گئے انتظامی تنازعات مالی سال کے دوران بھی جاری رہے۔ کمپنی کے بورڈ آف ڈائریکٹرز، اہم افسران اور دیگر ملازمین کو کمپنی کے احاطے میں داخل ہونے سے روکا گیا۔

مالیاتی کارکردگی

آپریٹنگ خراب صورتحال کے پیش نظر، کمپنی مالی سال کے دوران 183.30 ملین روپے کی فروخت اور 183.34 ملین روپے کا مجموعی نقصان حاصل کرنے میں کامیاب ہوئی، جبکہ مالی سال 2021 میں فروخت اور مجموعی نقصان بالترتیب 259.60 ملین روپے اور 219.90 ملین روپے تھے۔ مجموعی طور پر، PECO نے مالی سال کے دوران ٹیکس کے بعد 310.52 ملین روپے کا نقصان اٹھایا، جو گزشتہ سال کے 215.48 ملین روپے کے بعد کے نقصان کے مقابلے میں زیادہ ہے۔ اس کے نتیجے میں، فی شیر نقصان 54.57 روپے رہا، جو پچھلے سال کے 37.87 روپے فی شیر نقصان سے زیادہ ہے۔

قومی خزانے اور معیشت میں شراکت

آپ کی کمپنی نے مالی سال کے دوران 11.24 ملین روپے (30 جون 2020: 9.03 ملین روپے) قومی خزانے میں ادا کیے۔

آپریٹنگ اور مالیاتی ڈیٹا

کمپنی کے گزشتہ چھ سالوں کے آپریٹنگ اور مالیاتی ڈیٹا اور اہم تناسبات ضمیرہ میں شامل کیے گئے ہیں۔

گرچہٹی اسکیم

کمپنی اپنے ملازمین کو ریٹائرمنٹ فوائد فراہم کرتی ہے۔ یہ فوائد ایک غیر شراکتی معیاری فائدہ گرچہٹی اسکیم کے تحت دیے جاتے ہیں، جو تمام ملازمین کے لیے لاگو ہے۔ سال کے اختتام پر گرچہٹی اسکیم کی مالیت 22.77 بلین روپے تھی (30 جون 2020 کو بھی یہی مالیت تھی)، جو ایکچوری کلسٹنگ فرم نے متعین کی۔

بورڈ کی تشکیل، انتخابات، معاوضہ اور اجلاس

بورڈ میں ایک ایگزیکٹو، تین غیر ایگزیکٹو، اور چار آزاد ڈائریکٹرز شامل ہیں۔ بورڈ کی مکمل تشکیل اور اس کے ذیلی کمیٹیوں کے اراکین کے نام کمپنی کی معلومات والے صفحہ پر دیکھے جاسکتے ہیں۔ حکومت کی جانب سے نامزد ڈائریکٹرز میں مسٹر میراج انیس عارف (جنہیں بورڈ کے 199 ویں اجلاس، مورخہ 14 دسمبر 2018 کو ہٹا دیا گیا) اور مسٹر نعیم جان خان شامل تھے۔

سال 2020-21 کے دوران، 9 اپریل 2021 کو ڈائریکٹرز کے انتخابات منعقد ہوئے، اور پورے بورڈ کو تین سال کی نئی مدت کے لیے دوبارہ منتخب کیا گیا، جو 9 اپریل 2018 سے مؤثر ہے۔ مسٹر افتخار حسین کو مرحوم ڈائریکٹر مسٹر لیاقت محمد کی جگہ منتخب کیا گیا، اور دیگر تمام چھلے ڈائریکٹرز بغیر مقابلے کے دوبارہ منتخب ہوئے۔ بورڈ اپنے اراکین کی گزشتہ مدت کی خدمات کو سراہتا ہے اور ان سے امید رکھتا ہے کہ وہ مستقبل میں بھی رہنمائی اور مثبت شراکت فراہم کریں گے۔ مرحوم مسٹر لیاقت محمد کی خدمات کو بھی سراہا گیا، جنہوں نے کمپنی کی ترقی میں اہم کردار ادا کیا۔

کمپنی کی پالیسیوں اور سروس قوانین کے مطابق، حکومت پاکستان نے وزارت پیداوار کے ذریعے سال کے دوران بورڈ کے کسی چیئرمین کو مقرر نہیں کیا، حالانکہ متعدد درخواستیں دی گئیں۔ سال 2020-21 کے دوران، حکومت پاکستان نے وزارت صنعت و پیداوار کے ذریعے PECO بورڈ میں کسی نامزد ڈائریکٹر کو مقرر نہیں کیا، حالانکہ اس کے لیے کئی درخواستیں دی گئیں۔ بورڈ آف ڈائریکٹرز نے نیپینزا ایکٹ 2017 اور لیکچرینیز (کارپوریٹ گورننس) کا کوڈ (ریگولیشنز 2019) کے مطابق اپنے ڈائریکٹرز کے معاوضے کے لیے شفاف طریقہ کار اپنایا۔

سال 2020-21 میں، حکومت کے مقرر کردہ سابق اہم ڈی PECO، مسٹر میراج انیس عارف کی طرف سے تنازعات پیدا ہونے کی وجہ سے بورڈ کے صرف دو اجلاس منعقد ہو سکے۔ بورڈ ممبران کی حاضری درج ذیل رہی:

حصص کی ملکیت اور خرید و فروخت کا پتھرن

حصص کی ملکیت کا پتھرن اور اس سے متعلق اضافی معلومات الگ شامل کی گئی ہیں۔ سال کے دوران، کمپنی کے ڈائریکٹرز، چیف ایگزیکٹو آفیسر، کمپنی سیکرٹری، ان کے شریک حیات، اور نابالغ بچوں نے کمپنی کے حصص کی کوئی خرید و فروخت نہیں کی۔

حصص پر آمدنی

رپورٹ کے مطابق فی حصص نقصان 54.57 روپے رہا، جبکہ گزشتہ سال فی حصص نقصان 37.87 روپے تھا۔

آڈیٹرز

کمپنی کے 69 ویں سالانہ جنرل اجلاس میں Messrs. EY Chartered Accountants Ford Rhodes & Co. کو مالی سال 30 جون 2019 کے لیے آڈیٹر مقرر کیا گیا۔ اکتوبر 2018 کے بعد کوئی سالانہ جنرل اجلاس منعقد نہیں ہوا، کیونکہ حکومت کے مقرر کردہ سابق ایم ڈی PECO، مسٹر میراج انیس عارف کی وجہ سے تنازعات پیدا ہوئے، اور اس لیے کمپنیز ایکٹ 2017 کی دفعہ 246 کے مطابق کوئی آڈیٹر مقرر نہیں کیا گیا۔

مئی 2024 میں، سیکریٹریز اینڈ ایگزیکٹو کمیشن آف پاکستان (SECP) نے کمپنی کے آڈیٹرز Messrs. Malik Haroon Ahmad & Co. Chartered Accountants Messrs. Malik Haroon Ahmad & Co. کی تقرری کی منظوری دی، جو مالی سال 30 جون 2021 کے لیے ہوگی۔ Messrs. Malik Haroon Ahmad & Co. کو انسٹی ٹیوٹ آف چارٹرڈ اکاؤنٹنٹس آف پاکستان (ICAP) کے کوالٹی کنٹرول ریویو پروگرام کے تحت اطمینان بخش ریٹنگ دی گئی ہے اور یہ فریم بین الاقوامی فیڈریشن آف اکاؤنٹنٹس (IFAC) کے اخلاقیات کے کوڈ کے ساتھ مکمل ہم آہنگ ہے۔

آڈیٹرز کی رائے پر تبصرہ

i. جاری کاروباری حیثیت

اکتوبر 2018 سے مارچ 2023 تک انتظامی تنازعات کے باعث کمپنی کی کارروائیوں میں مسلسل تنزیل آتی رہی۔ PECO کی انتظامیہ نے اس صورتحال کو ستمبر 2018 میں وزارت صنعت و پیداوار اور SECP کے ساتھ پیشگی رپورٹ کیا تھا۔

iii. اسٹاک کی جسمانی گنتی

اکتوبر 2018 سے مارچ 2023 تک، سابق ایم ڈی PECO، مسٹر میراج انیس عارف کی انتظامیہ نے اسٹاک کی جسمانی گنتی نہیں کی۔ اس کے باعث، آڈیٹرز 30 جون 2021 تک اسٹاک کی موجودگی کے لیے مناسب شواہد حاصل کرنے سے قاصر رہے۔

iii. تجارتی قرضے اور دیگر واجبات

اکتوبر 2018 کے بعد، PECO کا مالیاتی نظام ناکارہ ہو گیا تھا، اور دستاویزات ناکافی تھیں۔ وینڈرز کے کھاتے غلط توازن ظاہر کرتے تھے، اور ادائیگیوں کے لیے مناسب طریقہ کار نہیں اپنایا گیا تھا۔ اہم ڈیٹا سرورز کا غائب ہونا۔ یہ دریافت کیا گیا کہ PECO کے مرکزی ڈیٹا سرور اور نیٹ ورک کے تمام ہینرز کی ہارڈ ڈرائیوز غائب تھیں۔ اس کی وجہ سے 30 جون 2018 کو اختتام پذیر سال کے تجارتی قرضوں اور دیگر قابل ادائیگیوں کے اختتامی ہینلس کی تصدیق میں رکاوٹ پیدا ہوئی۔ کئی کوششوں کے باوجود، صرف یکم جولائی 2018 کو افتتاحی ہینلس ہی قائم کیا جا سکا۔

حکومت کے مقرر کردہ سابق ایم ڈی PECO، میراج انیس عارف کی قیادت میں انتظامیہ اکتوبر 2018 سے اکتوبر 2022 کے درمیان ہونے والے مالیاتی اور آپریشنل لین دین کا مناسب ریکارڈ یقینی بنانے میں ناکام رہی۔

غیر دعویٰ شدہ ڈیویڈنڈز و وفاقی حکومت کے ساتھ جمع نہ کرانا

اکتوبر 2018 تک، انتظامیہ اور بورڈ آف ڈائریکٹرز نے کمپنیز ایکٹ 2017 کی دفعہ 242 کے تحت عمل درآمد شروع کیا تھا۔ اس مقصد کے لیے کمپنیز ایکٹ 2017 کے مطابق روزنامہ اخبارات میں اشتہارات دیے گئے۔ تاہم، حکومت کے مقرر کردہ سابق ایم ڈی PECO، میراج انیس عارف، اور ان کی ٹیم کے کارپوریٹ اور آپریشنل علم کی کمی کی وجہ سے، اس معاملے میں تاخیر ہوئی اور غیر دعویٰ شدہ ڈیویڈنڈز کمپنیز ایکٹ 2017 کے تحت ادائیگی کرنے کے لیے کارروائی نہ ہو سکی۔

تاہم، موجودہ انتظامیہ اور بورڈ اس بات کا عزم رکھتے ہیں کہ کمپنی کے نقدی کے بہاؤ کی صورتحال بہتر ہونے کے فوراً بعد، دفعہ 242 پر عمل درآمد یقینی بنایا جائے گا۔

حکومت پاکستان / پرائیویٹائزیشن کمیشن کے قرضے

حکومت پاکستان، پرائیویٹائزیشن کمیشن، اور وزارت خزانہ کے نمائندوں کے ساتھ حکومت پاکستان اور پرائیویٹائزیشن کمیشن کے قرضوں کا مسئلہ زیر بحث آیا۔ مختلف ملاقاتوں کے نتیجے میں، اصل قرض (سوائے 131.454 ملین روپے، جو پرائیویٹائزیشن کمیشن نے اپنی طرف سے اضافی گریجویٹ کے طور پر ادا کیے تھے) کا حساب کتاب مکمل ہو گیا۔

بورڈ آف ڈائریکٹرز نے اپنی مختلف میٹنگز میں یہ فیصلہ کیا کہ PECO کو حکومت پاکستان کے تحت قانون کے مطابق ادا ہونے والی رقم کو ادا کیا جائے گا۔ بورڈ نے حکومت پاکستان کے ساتھ اس کی ذمہ داریوں کو اسی ہی کے فیصلے مورخہ 02.03.1993 کے تحت با دمی باغ کی زمین کے ذریعے پورا کرنے پر اتفاق کیا، جس کی حالیہ قیمت 4,605.13 ملین روپے ہے، جو کہ حکومت پاکستان کی PECO سے مطلوبہ رقم سے زیادہ ہے۔ کمپنی کے بورڈ آف ڈائریکٹرز اور انتظامیہ کا ماننا ہے کہ ان قرضوں پر کسی سود کی ادائیگی کا معاہدہ نہ ہونے کی وجہ سے وہ سود ادا کرنے کے پابند نہیں ہیں۔

کارپوریٹ مالیاتی رپورٹنگ کے فریم ورک پر بیان

کارپوریٹ گورننس کے ضابطے کے تقاضے، جو اسٹاک ایکسچینج نے اپنی لسٹنگ ریگولیشنز میں بیان کیے ہیں، 30 جون 2021 کو ختم ہونے والے سال کے لیے مکمل طور پر پورے کیے گئے۔ اس اثر کا ایک بیان رپورٹ کے ساتھ منسلک ہے۔ براہ کرم صفحہ نمبر 34 کا حوالہ دیں۔

آڈٹ اور رسک مینجمنٹ کمیٹی

آڈٹ اور رسک مینجمنٹ کمیٹی کو بورڈ نے ڈائریکٹرز کی ذمہ داریوں کو نبھانے، کارپوریٹ گورننس، مالیاتی رپورٹنگ، اور کارپوریٹ کنٹرول میں معاونت کے لیے قائم کیا۔

کمیٹی تین ارکان پر مشتمل ہے، جہاں کمیٹی کے تمام ارکان بشمول چیئرمین آزاد ڈائریکٹرز ہیں۔ بورڈ آڈٹ اور رسک مینجمنٹ کمیٹی کمپنی کے مالیاتی نتائج، آڈٹ رپورٹس، اور مینجمنٹ کنٹرول کے نظام کے معیار پر عمل درآمد کا جائزہ لینے کی ذمہ دار ہے۔ کمیٹی ان طریقہ کار کا جائزہ لیتی ہے، ان کی خدمات کے لیے ان کی خود مختاری کو یقینی بناتی ہے، اور بورڈ آف ڈائریکٹرز کو سفارشات پیش کرتی ہے۔

حکومت کے مقرر کردہ سابق ایم ڈی PECO، میراج انیس عارف، کی جانب سے پیدا کردہ انتظامی تنازعات کے باعث بورڈ نے دسمبر 2018 میں ان کی برطرفی کے باوجود کسی بورڈ کمیٹی کا قیام عمل میں نہیں لایا۔ اس کے باوجود، سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان (SECP) اور وفاقی حکومت کو اس حقیقت سے آگاہ کر دیا گیا۔

ڈائریکٹرز ٹینگ پروگرام

کمپنی کے بورڈ آف ڈائریکٹرز میں 7 ڈائریکٹرز شامل ہیں، جن میں سے تمام ڈائریکٹرز نے لسٹنگ (کارپوریٹ گورننس کا کوڈ) ریگولیشنز، 2019 کے مطابق ڈائریکٹرز ٹینگ پروگرام کی تصدیق حاصل کر رکھی ہے۔

ضابطہ اخلاق

بورڈ نے پیشہ ورانہ معیار اور کارپوریٹ اقدار کے قیام کے لیے ایک ضابطہ اخلاق کی منظوری دی ہے، جو بورڈ، سینئر مینجمنٹ، اور دیگر ملازمین کی دیانتداری کے فروغ کے لیے ہے۔ اس میں قابل قبول اور ناقابل قبول رویوں کی وضاحت کی گئی ہے، اور اسے کمپنی کی ویب سائٹ پر شائع کیا گیا ہے۔

ملازمین کی تعداد

کمپنی نے اپنی کارروائیوں کو کم سے کم افرادی قوت کے ساتھ جاری رکھا۔ 30 جون 2021 تک ملازمین کی تعداد 302 تھی، جو پچھلے سال 304 تھی۔ حکومت کے مقرر کردہ سابق ایم ڈی PECO، میراج انیس عارف، کی وجہ سے انتظامی تنازعات کی وجہ سے ملازمین کے چھوڑنے کی شرح میں روز بروز اضافہ ہوتا رہا۔

ہیومن ریسورس اینڈ ریوژنیشن کمیٹی

حکومت کے مقرر کردہ سابق ایم ڈی PECO، میراج انیس عارف، کی جانب سے پیدا کردہ انتظامی تنازعات کے باعث ہیومن ریسورس اینڈ ریوژنیشن کمیٹی کا قیام عمل میں نہیں لایا گیا۔ حکومت کے مقرر کردہ سابق ایم ڈی PECO، میراج انیس عارف، کی جانب سے پیدا کردہ انتظامی تنازعات کے باعث دسمبر 2018 میں ان کی برطرفی کے باوجود سال کے دوران کسی بورڈ کمیٹی کا اجلاس منعقد نہ ہوا۔ تاہم، سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان (SECP) اور حکومت پاکستان کو اس حقیقت سے آگاہ کر دیا گیا۔

فنانس کمیٹی

کمیٹی کا مقصد بورڈ کے قائم کردہ عمومی پالیسی فریم ورک کے اندر خزانہ سے متعلق پالیسی ترتیب دینا ہے۔ اس کمیٹی کی تشکیل کا مقصد روزمرہ کے خزانہ آپریشنز اور معمول کی سرگرمیوں کے انتظام کو محدود یا متاثر کرنا نہیں ہے۔ کسی بھی غیر معمولی حالات یا مالیاتی منڈی کے رویے کے نتیجے میں ہونے والے انحراف کو بعد ازاں بورڈ کی میٹنگ میں پیش کر کے منظوری لی جائے گی۔ حکومت کے مقرر کردہ سابق ایم ڈی

PECO، میراج انیس عارف، کی جانب سے پیدا کردہ انتظامی تنازعات کے باعث فنانس کمیٹی کا قیام عمل میں نہیں لایا گیا۔ کمیٹی کا مقصد ہر سہ ماہی میں میٹنگ کرنا ہے، تاہم یہ ضروری ہے کہ کمیٹی کے اراکین کی اکثریت ہر مالی سال میں کم از کم دو بار میٹنگ کرے اور دیگر مواقع پر بھی جب کمیٹی کے چیئرمین ضرورت محسوس کریں۔

بورڈ کی کسی کمیٹی کی کوئی میٹنگ رواں سال کے دوران نہیں ہو سکی؛ یہ صورتحال گورنمنٹ نامزد سابق ایم ڈی پی ای سی او، میراج انیس عارف، کے پیدا کردہ تنازعات کے باعث پیدا ہوئی، حالانکہ انہیں دسمبر 2018 میں برطرف کر دیا گیا تھا۔

متعلقہ پارٹی کے لین دین

کمپنی نے تمام متعلقہ پارٹی کے لین دین کی تفصیلات آڈٹ کمیٹی کے سامنے پیش کرنے کا عمل جاری رکھا اور ان کی سفارش پر بورڈ کے سامنے جائزہ لینے اور منظوری کے لیے پیش کیا گیا۔

ویب موجودگی

کمپنی کے رواں مالی سال کے وقفے وقفے سے مالیاتی بیانات، بشمول پچھلے تین سالوں کی سالانہ رپورٹس، سرمایہ کاروں کی معلومات کے لیے کمپنی کی ویب سائٹ www.peco.com.pk پر دستیاب ہیں۔

صحت، حفاظت اور ماحول

کمپنی صحت، حفاظت اور ماحول کے معیار کو بہتر بنانے کے لیے مکمل طور پر عزم ہے تاکہ پائیدار کارکردگی حاصل کی جاسکے۔ عملی حفاظت اور رویے پر مبنی حفاظتی نظام کو کمپنی کی تنظیمی اسکیم کے ساتھ مربوط کیا گیا ہے، اور کمپنی مسلسل بہتری کی راہ پر گامزن ہے تاکہ اعلیٰ معیار کو حاصل اور برقرار رکھا جاسکے۔ کمپنی نے ایک مضبوط جانشینی منصوبہ تشکیل دیا ہے، جس میں ممکنہ مستقبل کے قائدین کی کارکردگی کا جائزہ اور مناسب تربیت کی ضروریات شامل ہیں۔

واجبات کی تفصیلات

واجبات کی تفصیلات اکاؤنٹس کے نوٹ نمبر 23 میں دی گئی ہیں۔

کاروباری منصوبے

کوئی کاروباری منصوبہ تشکیل نہیں دیا جاسکا کیونکہ نہ تو بورڈ آف ڈائریکٹرز اور نہ ہی اہم افسران یا ملازمین کو کمپنی کے احاطے میں داخل ہو کر اپنے پیشہ ورانہ فرائض انجام دینے کی اجازت دی گئی۔

کمپنی کے اہم افسران نے ایک علیحدہ جگہ پرسنل آفس قائم کیا تاکہ حکومت پاکستان، سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان (SECP) اور دیگر ریگولیٹری اداروں سے رابطہ رکھا جاسکے۔

بورڈ آف ڈائریکٹرز اور انتظامیہ کو یقین ہے کہ وہ اپنے بہترین ممکنہ اقدامات سے سابق گورنمنٹ نامزد ایم ڈی پی ای سی او، میراج انیس عارف، کے پیدا کردہ نقصانات کا ازالہ کرنے کی کوشش کر رہے ہیں، اور کمپنی، ان شاء اللہ، غیر معینہ مدت تک ایک "چلتی ہوئی تنظیم" کے طور پر کام کرے گی۔

اظہار تشکر

بورڈ اپنے تمام اسٹیک ہولڈرز، اہم افسران، ملازمین، شیئرز ہولڈرز، اور دیگر افراد کا ان کے تعاون کے لیے شکریہ ادا کرنا چاہتا ہے۔ اسٹیک ہولڈرز کے اعتماد اور حسن نیت نے کمپنی کو اپنے مسائل پر قابو پانے میں مدد فراہم کی۔ پاکستان انجینئرنگ کمپنی لمیٹڈ میں موجودہ مسائل کے حل کے لیے بورڈ آف ڈائریکٹرز نے وزارت صنعت و پیداوار کے ذریعے حکومت پاکستان کو مکمل تعاون کی یقین دہانی کرائی ہے۔

to the Members of Pakistan Engineering Company Limited Report on the Audit of the Financial Statements

Disclaimer of Opinion

We have audited the annexed financial statements of **Pakistan Engineering Company Limited** (the Company), which comprise the statement of financial position as at **June 30, 2021**, and the statement of profit or loss, statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

We do not express an opinion on the accompanying financial statements of the Company. Because of the significance of the matters described in the *Basis of Disclaimer of Opinion* section of the report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for Disclaimer of Opinion

1. Following the management crisis from October 2018 till March 2023 and despite keeping all stakeholders on board during this period, the Company does not have any active business operations to maintain its going concern status. Additionally, as disclosed in Note 2 to the financial statements, the Company has incurred the loss of Rs 314.154 Million. Nevertheless, the financial statements have been prepared on a going concern basis.
2. The fair valuation of investment property amounting to Rs. 18.78 million, as disclosed in Note 6.4 of the financial statements, is based on a valuation carried out as of March 17, 2016. However, we were unable to obtain audit evidence to assess whether any material adjustments in disclosure were required.
3. We were not appointed as the Company's auditors until after December 31, 2024, and thus did not observe the counting of physical inventories at the beginning or end of the year. We were unable to satisfy ourselves by alternative means concerning the inventory quantities held at June 30, 2021, which are recorded in the statement of financial position at Rs. 306.049 million.
4. We were unable to obtain audit evidence to verify long-term investments of Rs. 819,000, long-term deposits of Rs. 1.000 million, advances of Rs. 38.946 million, and trade deposits, prepayments, and other receivables of Rs. 24.178 million.
5. We were unable to verify trade debtors amounting to Rs. 20.199 million. Additionally, we were unable to verify trade and other payables amounting to Rs. 436.929 million out of a total balance of Rs. 627.467 million.
6. The employee benefit liability has been calculated using the simplified approach, which contravenes IAS 19 guidelines that require the use of the projected unit credit method.
7. Unclaimed dividends amounting to Rs. 13.070 million have not been deposited with the Federal Government as required by Section 242 of the Companies Act 2017. We were unable to determine the potential penalty, which should have been recorded in the financial statements.
8. Notes 26 and 27.1.3 to 27.1.5 of the financial statements state that the management believes the Company is not liable to pay Rs. 131.454 million in principal loan liabilities and Rs. 5.059 billion in accrued interest as claimed by Government Authorities. We were unable to obtain sufficient audit evidence to verify these assertions.

9. Due to the matters noted above, we were unable to determine whether the deferred tax liability of Rs. 119.706 million has been appropriately accounted for in the financial statements.

As a result of above matters, we were unable to determine whether any adjustments might have been found necessary in respect of recorded or unrecorded inventories and other balances, and the elements making up the statement of profit and loss, statement of comprehensive income, statement of changes in equity and statement of cash flows.

Responsibilities of Management and Board of Directors for the Financial Statements

PAKISTAN ENGINEERING COMPANY LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021

1 LEGAL STATUS AND OPERATIONS

- 1.1 Pakistan Engineering Company Limited ("the Company") was incorporated in Pakistan on February 15, 1950 under the Companies Act, 1913 (Now Companies Act, 2017) as a public limited company. Its shares are quoted on Pakistan Stock Exchange. The factory of the Company is situated at Near Kot Lakhpat Railway Station, Quaid-e-Azam Industrial Estate, PECO Road, Lahore. The registered office of the Company is situated at 6/7 Ganga Ram Trust Building, Shahra-e-Quaid-e-Azam, Lahore. The company is principally engaged in the manufacturing and sale of engineering products. The major products of the company are electricity transmission and communication towers, electric motors, pumps and steel rolled products etc.

2 GOING CONCERN ASSUMPTION

During the FY 2018-19, a management crisis unfolded as the managing director appointed by the Government of Pakistan debarred the Board of Directors and key management personnel of the Company to continue their official duties and assumed control of the Company's operations, and made futile efforts to run the business independently. This crisis continued until March 21st, 2023, when the Board and the key management personnel was reinstated. The Board of Directors and key management personnel of the Company made all efforts to apprise all the stakeholders, i.e., Government of Pakistan, Securities and Exchange Commission of Pakistan (SECP) and Pakistan Stock Exchange (PSX), about the crises from time-to-time. Since then, the Board and the key management personnel have been working to compile accurate financial information to prepare financial statements that reflect the true position of the Company's affairs. Due to this crisis during the year the Company incurred loss of Rupees 314.154 million. The Board of directors of the Company is hopeful to successfully resume the operations of structure, pump/electric motor and foundry divisions in coming days. Accordingly, these financial statements are prepared on going concern basis.

Prior to this period, keeping in view the financial condition of the Company, the Government of Pakistan in past had closed down all the divisions of the Company, however, a rehabilitation plan was approved by the Federal Cabinet and according to the plan, Structure (STR) division was kept operational and Badami Bagh Works was closed down with its land being offered for sale by the Privatization Commission of Pakistan. Furthermore, the company was allowed to hire needed workforce on job-to-job basis on contract/daily wages. In this regard title deed of Badami Bagh Land was also handed over to the Privatization Commission of Pakistan. Expression of interest has been received by Privatization Commission of Pakistan in this regard from many parties and management is confident that the transaction will be completed soon.

As per the recorded order of the Government of Pakistan, the principal liabilities payable towards the GoP will be settled through sale proceeds of Badami Bagh Land, the value of which has been estimated at Rs. 4,605.133 million. This value is significantly greater than the value of principle Government liabilities payable which amount to Rs. 1,790.848 million in aggregate. Further, the markup claimed by the Government departments on these liabilities is strongly disputed as there was no mention of charging interest in any agreement or decision. Further, to resolve the issue of charging of markup on the GoP loans a committee is recommended to be constituted which should comprise of representative from Ministry of Finance, Ministry of Industries and Production, Privatization Commission and Board Members of PECO.

The Government of Pakistan (through SEC) is one of the major stakeholders has provided in past continued support to the company and expressed its commitment in order to maintain the going concern status of the company. Further the Government's commitment to maintaining the going concern status of the Company is also supported by the fact that the Government in past has provided financial support to the Company in the form of interest free loans and financial support and continues to do so in the shape of credit ceilings vide Ministry of Finance to Rs. 700 million.

In view of the situation set out above, although material uncertainty exists which may cast significant doubt on the Company's ability to continue as a going concern and therefore it may be unable to realize its assets and discharge its liabilities in the normal course of the business, however, the BoD and the management of the company is strongly committed to maintaining the going concern status of the Company, which is evident from the above paras and is firmly confident that all these conditions are temporary and not permanent and would reverse in the near future and that the going concern assumption is appropriate for the reasons explained in the above paragraphs, therefore, these Financial Statements have been prepared on the assumption that the company will continue as a

3 BASIS OF PREPARATION

3.1 Statement of Compliance

- These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards as applicable in Pakistan comprise of :

- (i) International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board and Islamic Financial Accounting Standards (IFAS) issued by Institute of Chartered Accountants of Pakistan
- (ii) Provisions of and directives issued under the Companies Act, 2017 (the Act).

Wherever the requirements of the Act or directives issued by Securities and Exchange Commission of Pakistan differ with the requirements of IFRS or IFAS, the requirements of the Act or the requirements of the said directives prevail.

3.2 Basis of measurement

- These financial statements have been prepared under the historical cost convention except for valuation of certain financial instruments at fair value.

3.3 Critical accounting estimates and judgments

- The Company's significant accounting policies are stated in note 3 to these financial statements. Not all of these significant policies require the management to make difficult, subjective or complex judgments or estimates. The following is intended to provide an understanding of the policies the management considers critical because of their complexity, judgment of estimation involved in their application and their impact on these financial statements. Estimates and judgments are continually evaluated and are based on historical experience, including expectation of future events that are believed to be reasonable under the circumstances. These judgments involve assumptions or estimates in respect of future events and the actual results may differ from these estimates. The areas involving higher degree of judgments or complexity or areas where assumptions and estimates are significant to the financial statements are as follows:

3.4 Provision for taxation

- The Company takes into account the current income tax law and the decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by the income tax department at the assessment stage and where the Company considers that its views on items of material nature are in accordance with law and the outcome is expected in favour of the Company, are shown as contingent liabilities.

3.5 Estimated useful lives, residual values and method of depreciation of property, plant and equipment

The Company reviews the useful lives, residual value and method of depreciation of property, plant and equipment on a regular basis. Any change in estimates in future years might affect the carrying amounts of respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment.

3.6 Provision for inventories and stores

- The Company regularly reviews the inventories for impairment. Provision for obsolete and slow-moving inventories is based on management's estimate of the condition and usability of inventories and stores.

3.7 Impairment of trade receivables

- The Company applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables and contract assets. The expected loss rates are based on the payment profiles of sales over a period of time before the reporting date and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

3.8 Fair value of unquoted investments

Fair value of unquoted investments is determined by using valuation techniques. The Company uses its judgment to select an appropriate method and makes assumptions that are mainly based on market conditions existing at the end of each reporting period.

3.9 Functional and presentation currency

- The financial statements are presented in Pak Rupees which is the Company's functional and presentation currency

3.10 Provisions Against Doubtful Balances

- The Company reviews its doubtful balances at each balance sheet date to assess the adequacy of the provision there against. In particular, judgment is required in the estimation of the amount and timing of future cash flows when determining the level of provision required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the provision.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.3 Taxation

Current

Provision for current tax is based on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year, if enacted. The charge for current tax also includes adjustments, where considered necessary, to provision for taxation made in previous years arising from assessments framed during the year for such years.

Deferred

Deferred tax is accounted for using the balance sheet liability method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Deferred tax is calculated at the rates that are expected to apply to the year when the differences reverse based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is charged or credited in the profit or loss, except in the case of items credited or charged to other comprehensive income.

4.4 Property, plant and equipment

- Property, plant and equipment except for freehold and leasehold land are stated at cost less accumulated depreciation and any identified impairment loss, if any. Freehold and factory building is stated at revalued amount less any identified impairment loss, if any

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to profit or loss during the period in which they are incurred.

Depreciation on all items of property, plant and equipment is charged to profit or loss applying the diminishing balance method so as to write-off the depreciable amount of an asset over its useful life. Depreciation is being charged at the rates given in note 5. Depreciation on additions to property, plant and equipment is charged from the month in which an asset is acquired or capitalized while no depreciation is charged for the month in which the asset is disposed off.

The Company continually assesses at each reporting date whether there is any indication that property, plant and equipment may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amount and the resulting impairment loss is recognized in profit or loss for the year. Any previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount, and the increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Where an impairment loss is recognized, the depreciation charge is adjusted in the future periods to allocate the assets' revised carrying amount over its estimated useful life.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and carrying amount of the asset) is included in the profit or loss in the year the asset is derecognized.

4.5 Capital work in progress

- All expenditure connected with specific assets incurred during installation and construction period including advances to suppliers and contractors are carried under this head. These are transferred to specific assets as and when these assets are available for use.

Capital work-in-progress is stated at cost less any identified impairment loss, if any.

4.6 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of the Company that makes strategic decisions. On the basis of its internal reporting structure, the Company considers itself to be a single reportable segment. An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses. The financial information has been prepared on the basis of single reportable segment i.e. "Engineering".

4.7 Associated Undertakings / Related Parties

- The units controlled by the Ministry of Industries and Production, Government of Pakistan and under common controls are considered as associated undertakings of the company. All transactions between the Company and the associated undertakings are accounted for at an arm's length price determined using "cost plus method" and properly recommended by the audit committee and subsequently approved by the board of directors of the Company.

4.8 Foreign Currency Translation

- All monetary assets and liabilities in foreign currencies are translated into Pak Rupees at the rates of exchange prevailing at the reporting date. Transactions in foreign currencies are translated into Pak Rupees at exchange rate prevailing at the date of transaction. Foreign exchange gains and losses on translation of monetary items are recognized in the profit or loss. All non-monetary items are translated into Pak Rupees at exchange rates prevailing on the date of transaction or on the date when fair values are determined.

4.9 Investment property

Property not held for own use or for sale in the ordinary course of business is classified as investment property. The investment property of the Company comprises land and is valued using the cost method i.e. at cost less any identified impairment loss.

The Company assesses at each reporting date whether there is any indication that investment property may be impaired. If such indication exists, the carrying amount of such assets is reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying value exceeds the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in the profit or loss for the year. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

The gain or loss on disposal or retirement of an investment property represented by the difference between the sale proceeds and the carrying amount of the asset is recognized in profit or loss.

4.10 Trade debts and other receivables

Trade debts are carried at original invoice amount less any expected credit losses based on review of outstanding amounts at the year end in accordance with the simplified approach. Bad debts are written off when identified.

4.11 Employees' Retirement Benefits

(a) Defined benefits plan

- The Company operates an unfunded gratuity scheme for its employees, defining the benefit amount an employee will receive upon retirement, resignation, or termination, subject to a minimum qualifying period of service. The Company's net obligation under this defined benefit plan is typically calculated by estimating the future benefits employees have earned in current and prior periods, discounting that amount, and deducting the fair value of any plan assets, with this calculation normally performed annually by a qualified actuary using the projected unit credit method.

For the financial year 2019, no actuarial valuation was performed. Instead, a simplified provision was made by adding one month's salary for each of the 65 employees to the opening liability, as previously valued by the actuary on June 30, 2018. Due to this simplified calculation method, no remeasurement changes or interest expenses were recognized. The increase in provision is charged to statement of profit or loss.

(b) Defined contribution plan

- Up to June 30, 2005, company was operating a funded provident fund scheme covering all regular members and monthly contribution was made to the trust @10% of basic pay both by the company and the employees.

4.12 Trade and other payables

- Liabilities for trade and other amounts payable are measured at amortized cost which is the fair value of the consideration to be paid in future for goods and services received, whether or not billed to the Company.

4.13 Revenue recognition

4.13.1 Revenue from sale of goods, implements and multi-application products, along with the provision of after market services. Revenue is recognized when performance obligations are satisfied by transferring control of a good or service to a customer, either at a point in time or over time of an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Revenue is recognised in accordance with the aforementioned principle by applying the following steps:

- i) Identify the contract with a customer.
- ii) Identify the performance obligation in the contract.
- iii) Determine the transaction price of the contract.
- iv) Allocate the transaction price to each of the separate performance obligations in the contract.
- v) Recognise the revenue when (or as) the entity satisfies a performance obligation.

Revenue is recognised either at a point in time or over time, when (or as) the Company satisfies performance obligations by transferring the promised goods or services to its customers. Any bundled goods or services that are distinct are separately recognized, and any discounts or rebates on the contract price are generally allocated to the separate element.

(a) Income on bank deposits

Interest income on bank deposits is accounted for on the time proportion basis using the applicable rate of return.

(b) Others

Scrap sales and miscellaneous receipts are recognized on realized amounts.

4.14 Borrowing Costs

- Borrowing costs are recognized as an expense in the period in which these are incurred except to the extent of borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs are capitalized as part of the cost of that asset up to the date of its substantially completed.

4.15 Provisions

- Provisions for legal claims, service warranties and make good obligations are recognised when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses as there is no past event.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre tax rate that reflects current market assessments of the time value of money and the risks specific to the entity. The increase in the provision due to the passage of time is recognised as interest expense.

4.16 Cash and Cash Equivalent

- For the purposes of the cash flow statement, cash and cash equivalents are stated at cost and comprise of cash in hand, cash at banks on current, saving and deposit accounts and other short term highly liquid instruments that are readily convertible into known amounts of cash which are subject to insignificant risk of changes in values. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purpose.

4.17 Investments

- Investments intended to be held for less than twelve months from the balance sheet date or to be sold to raise operating capital, are included in current assets, all other investments are classified as non-current.

a) Investments available for sale

These are initially recognized at fair value plus transaction cost and at subsequent reporting dates measured at fair values. Gains or losses from changes in fair values are taken to profit and loss.

b) Held to maturity

Investments with fixed maturity that the management has the intent and ability to hold to maturity are classified as held to maturity and are initially measured at fair value and transaction cost and at subsequent reporting dates measured at amortized cost using the effective yield method.

c) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are initially measured at fair value plus directly attributable transaction costs. After initial measurement loans and receivables are subsequently measured at amortized cost using effective interest rate method less impairment, if any. These are classified as current and non-current assets in accordance with criteria set out by the IFRS.

d) Investments at fair value through profit or loss - held for trading

Investments which are acquired principally for the purpose of selling in the near term or the investments that are part of a portfolio of financial instruments exhibiting short term profit taking, are classified as held for trading and designated as such upon initial recognition. These are stated at fair values with any resulting gains or losses recognized directly in the profit and loss account. The Company recognizes the regular way purchase or sale of financial assets using settlement date accounting.

4.18 Impairment

a) Financial assets

A financial asset is considered to be impaired if subjective evidence indicate that one or more events will have a negative effect on the estimated future cash flow of that asset. An impairment loss in respect of a financial asset measured at amortized cost is calculated as a difference between its carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

b) Non- Financial Assets

The carrying amount of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such indications exist, the asset's recoverable amount is estimated in order to determine the extent of the impairment loss, if any. Impairment loss is recognized as expense in the profit and loss account. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

4.19 Financial Instruments

- All financial assets and liabilities are recognized at the time when the company becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are initially measured at cost, which is the fair value of the consideration given and received respectively. These financial assets and liabilities are subsequently measured at fair value, amortized cost or cost as the case may be. A financial asset is de-recognized when the company loses control of its contractual rights that comprise the financial asset. A financial liability is de-recognized when it is extinguished. Any gain or loss on de-recognition of the financial assets or liabilities is taken to profit and loss account. The Company recognizes the regular way purchase or sale of financial assets using settlement date accounting.

a) Trade and other receivables

Trade and other receivables are recognized and carried at original invoice amount / cost less an allowance for any uncollectible amounts. Carrying amounts of trade and other receivables are assessed on a regular basis and if there is any doubt about the reliability of these receivables, appropriate amount of provision is made.

b) Off setting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when there is a legally enforceable right to set off the recognized amount and the Company intends either to settle on a net basis or to realize the assets and to settle the liabilities simultaneously.

c) Markup bearing borrowings

Markup bearing borrowings are recognized initially at cost being the fair value of consideration received, less attributable transaction costs. Subsequent to initial recognition, markup bearing borrowings are stated at original cost less subsequent repayments.

d) Interest-free borrowings at amortized cost

These are measured at amortized cost. The amortized cost of these financial liabilities is determined using prevailing market interest rates for equivalent loans.

4.20 Dividend and appropriation to reserves

- Dividend distribution to the Company's shareholders is recognized as a liability in the period in which these are approved. Appropriations of profit are reflected in the statement of changes in equity in the period in which such appropriations are approved.

4.21 Earnings per share

- The company presents basic and diluted Earning Per Share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit after tax attributable to ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

4.22 Contingent assets

- Contingent assets are disclosed when the Company has a probable asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognized until their realization becomes virtually certain.

4.23 Contingent liabilities

- There is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company;
or
- There is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

4.24 Share Capital

- Ordinary shares are classified as equity and recognized at their face value. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax.

17 FREE HOLD LAND - HELD FOR SALE

Free hold land - held for sale	314,724	314,724
--------------------------------	---------	---------

- 17.1** This represents land of 263 kanals and 3 marlas of Badami Bagh Works which has been closed down. The fair value of land, based on valuation carried out by an independent valuer on February 15, 2016 was estimated at Rs. 4,605.133 million. The company has the possession and control of the land and holds valid title. As per the Economic Coordination Committee decision the title documents of the land were handed over to the Privatization Commission for sale and proceeds to be utilized for settlement of outstanding Government liabilities (refer note. 26.2). In this regard the title documents of the land have been handed over to the Privatization Commission for sale in 1994 by National Bank of Pakistan. Since then till date the land has been offered for sale various times by the Privatization Commission of Pakistan. A part of the land was sold in February 2001 by the Privatization Commission of Pakistan and several expressions of interests have been received for the remaining portion by Privatization Commission from many parties. The Mutation of land is complete as per The Board of Revenue Punjab letter which states that the Government of Punjab has, however, no objection to the disposal of properties of PECO which had vested in the Federal Government. However a letter was issued by the Joint Secretary Ministry of Industries and Production Islamabad directing District Officer Revenue Lahore and copy endorsed to Member Revenue Punjab to stop the above mutation till further instructions, for undisclosed reasons. The BOD and the Management of the Company are till date strongly committed to the plan of selling the Badami Bagh Land and there has been no revocation of the GOP order or any change in the management's stance or plan. Further the Privatization Commission in its direct confirmations to the auditors has also clearly stated that GOP loans would be recovered from the sale proceeds of Badami Bagh Land.

Therefore taking into account the fact that the carrying amount of the land would be recovered principally through a sale transaction and not through continuing use and that the management and the GOP are firmly committed to a plan to sell the land and till date there has been no change of plan or revocation of Government order, the land is available for immediate sale, active programs to locate buyers continue to be carried out, the asset is marketed at fair value and it is extremely unlikely that the plan will be significantly be changed or withdrawn. The foregoing facts that events or circumstances which have resulted in the extension of the period to complete the sale beyond one-year, are beyond the entity's control, therefore, Badami Bagh Land is classified as "Held for Sale" at lower of its carrying amount or fair value less cost to sell.

26.2 These represent funds provided by the Government of Pakistan (the Government), bank loans of the company taken over by the Government and amounts payable by the company to different Government departments like Customs, Railways and Karachi Port Trust. According to the Cabinet Committee Division decision dated 30th May 1994 and 2005 these liabilities will be settled against the proceeds from disposal of Land held for sale (Ref: Note 17.1) and surplus land of Kot Lakhpat, if needed. There is no fix repayment schedule or tenure for repayment of these liabilities. An exercise to reconcile the liabilities is in process and several meetings have been conducted in this regard, however, all these meetings concluded without any decision or agreement with respect to the reconciliation of the loan liabilities and calculation, payment or mode of payment of interest on Government of Pakistan loans due to which there is currently no fixed tenure for repayment of these liabilities nor the total amount of the liability is determinable. In the absence of the availability of a defined repayment schedule due to reasons explained above, the fair value of these loans is not determinable and hence they have been stated at cost.

The Technical Advisory Committee (TAC) of Institute of Chartered Accountants of Pakistan (ICAP), on the request of Management of PECO, on March 28, 2017, also gave an opinion, on the issue of recording accrual of mark-up on GoP loans. After review of all details, workings and complete documents, The Committee is of the view that "the management of company needs to determine whether a present obligation exists at the end of the reporting period taking into account all the available evidences, including, the opinion of legal experts. Where there is a probability that a present obligation exists at the end of the reporting period, the provision should be recognized. Contrary to this will require an entity to disclose a contingent liability".

The Board of Directors in its various meetings has resolved that amount due under the law to the Government of Pakistan (GoP) for any loan given to PECO shall be paid. The Board has agreed with GoP to adjust its liabilities by disposal of Badami Bagh Land as decided in E.C.C decision dated 02.03.1993, which according to the recent valuation amounts to Rupees 4,605.133 million and it is in excess of the amount being claimed by GoP from PECO. The BoD and the management of the Company believes that they are not liable to pay any interest on these loans in the absence of any agreement. The legal advisor of the company is also of the firm opinion that since there is no mention of any markup to be charged on this loan nor is there any markup agreement, therefore, no markup is payable by the company in respect of this loan. Therefore, a disclosure of a contingent liability is made in notes (refer note 27.1.4 & 27.1.5) to these financial statements.

For the year ended June 30, 2021 and in past as well the Privatization Commission and Finance Division sent a letter to the auditors in November 2024, claiming the additional principal and markup on the above loan liabilities, however, the BoD and the management do not agree with the additional liabilities claimed and the claim of GoP regarding the payment of interest is disputed by the BoD and the management as there had never been any agreement in this regard. Further, the above loan liabilities were picked up by the GoP in order to provide public sector enterprises including PECO to give them clean slate on their liabilities so that they could be privatized and were provided without any specific request from these public sector enterprises, including PECO. In addition to the above, similar public sector entities which were provided similar reliefs by the GoP have never been asked to make any payments in respect of such reliefs. However, despite of this the BoD and the management of the Company is willing to repay the principal and in order to reconcile the principal and markup amounts with respect to GoP Loans, a committee was constituted as per the decision of Additional Finance Secretary in the meeting held in Government of Pakistan Finance Division (CF Wing), Islamabad. The committee includes representatives from Ministry of Finance, Ministry of Production, Privatization Commission and Board members from PECO. Several meetings have been taken place till date and in this regard a meeting of the committee was held on October 7, 2010 at Ministry of Finance (Finance Division) which was attended by representatives of Privatization Commission, Ministry of Production and PECO. The BoD and management of PECO agreed to repay all the outstanding principal, which the company is legally liable through disposal proceeds of Badami Bagh Land and surplus Land of Kot Lakhpat, if needed. However, the BoD and the management of the Company believes that they are not liable to pay any interest on these loans in the absence of any agreement. In the meeting held on 13 July 2015 in Privatization Commission, it was mutually agreed by all

Further, the Finance Division was instructed in the meeting to re-examine the issue and confirm the contention of PECO. Following, the meeting held at Finance Division, the management of the company obtained fresh legal opinion from legal consultant regarding the matter of charging interest on GoP loans. The legal advisor was of the opinion that no markup / interest was payable by PECO to Ministry of Finance and Privatization Commission and instead believed that a case of causing loss to PECO on account of delay caused in disposing off the land at Badami Bagh should be made out, either by raising monetary claim or claiming set-off against the alleged principal loan liability. The management of the company had handed over the title documents of the said land to the Privatization Commission for disposal in the year 1994 and had Privatization Commission disposed off the land at that time, no issue of interest would have risen. Further, meetings were held between the representatives of Ministry of Finance, Privatization Commission and Ministry of Production and the PECO Loan Committee to reconcile the loan liabilities. However, these meetings concluded without any decision or agreement with respect to the reconciliation of loan liabilities and calculation, payment or mode of payment of interest on Government of Pakistan loans. Further, as agreed no SRO, notification, documentation was provided by the Ministry of Finance to substantiate their view point on the issue of levy of markup on Government loans and it was agreed to refer PECO's view points to Ministry of Finance who may refer the matter to Ministry of Law to form their verdict.

Further, the principal amount of these loans has been agreed except for additional gratuities and in respect of the amounts disputed, the BoD and the management is of the opinion that an arbitrator should be appointed who should be acceptable to both the parties. Further, under the directions of public accounts committee the matter of charging interest is being reviewed by the committee comprising of Ministry of Industries, Ministry of Finance and Privatization Commission of Pakistan.

26.2.1 The break up of loan from Privatization Commission is as follows:

Loan for voluntary separation scheme (VSS) / Compulsory separation scheme (CSS) and Salaries	281,082	281,082
Loan for shifting of machinery	75,819	75,819
Loan for Energy bills and Import duties	124,568	124,568
	<u>481,469</u>	<u>481,469</u>

26.2.2 This represents interest free loan provided by Privatization Commission to PECO for payment of salaries, energy bills, shifting of plant & machinery from Badami Bagh to Kot Lakhpat and payment of outstanding essential liabilities. According, to the Cabinet Committee Division decision, Privatization Commission would adjust its loan liability against the sale proceeds of Badami Bagh Land and surplus land of Kot Lakhpat, if needed and in this regard title documents of Badami Bagh Land were handed over to the Privatization Commission in 1994 by PECO. The foregoing loans have been outstanding since 1993. The company also obtained legal opinion from the legal advisers of the company. The legal adviser is of the firm opinion that since there is no mention of any markup to be charged on this loan in any agreement nor is there any markup agreement in respect of this loan therefore no markup is payable by PECO in respect of this loan. The BoD and the management firmly believes that as the Company had handed over the title documents of the said land to the Privatization commission for disposal in the year 1994 and had Privatization Commission disposed off the land at that time no issue of charging any interest on these loans would have risen and instead believed that a case of causing loss to PECO on account of delay caused in disposing off the land at Badami Bagh should be made out, either by raising monetary claim or claiming set-off against the alleged principal loan liability. The difference of Rs. 131.454 million claimed by the Privatization Commission on account of additional gratuities is because of misapprehension on part of GoP, whereby, PECO is considered responsible to pay Rs. 131.454 million, that infact was the liability of the Privatization Commission under the APSEWEC agreement. As per the APSEWEC agreement Privatization Commission took the liability to make additional gratuity payments, for which purpose it had advanced Rs. 131.454 million to PECO. On receiving the said amounts PECO had made the payments as was directed. It is important to note that PECO was not a party to these agreements, therefore, it cannot be held responsible for fulfilling any obligation pertaining to them. The claim of GoP is based on illegitimate assumption.

Furthermore, the legal advisors are also of firm opinion that the amount of additional gratuities of Rs. 131.454 million (refer note 27.1.3) should be borne by the Privatization Commission. In this regard, in the meeting held on October 7, 2010 at Finance Division, Privatization Commission was instructed by Ministry of Finance to review the calculation / treatment of the loan amounting to Rs. 131.454 million and come up with firm stance on it. The Privatization Commission was further instructed to sort out the issue of charging interest on VSS loan and come up with sound reason and logic for charging interest thereon. Neither formal agreements were signed or executed between the Privatization Commission, Ministries and PECO nor definitive terms and conditions exist in relation to the issue of markup and that the Privatization Commission only applied markup as instructed by the Finance Division. Further, under the directions of public accounts committee the matter of charging interest is being reviewed by the committee comprising of Ministry of Industries, Ministry of Finance and Privatization Commission of Pakistan.

26.2.3 The break up of Government Escrow account is as follows:

Customs and other import duties	86,984	86,984
Pakistan Railways freight	12,989	12,989
Karachi Port Trust	12,964	12,964
	<u>112,937</u>	<u>112,937</u>

26.2.4 The company has not provided interest amounting to Rs. 41.989 million (accumulated Rs. 41.989 million) @ 14% for three years relating to custom and other import duties (2020: Rs 41.989 million) as the BoD and the management believes that there was no clause of charging interest or surcharge in the ECC and Cabinet Decision. In spite of confirmation requests and several reminders, no confirmation of custom and other import duties of Rs. 86.984 million and Karachi Port Trust of Rs.12.964 million along with markup / surcharge on custom duty of Rs. 2,703.822 million (refer note 27.1.4) was received by the auditors from customs or Pakistan Railways or port Trust.

26.2.5 The break up of Other Government loans is as follows:

Bank loans taken over	100,000	100,000
-----------------------	----------------	---------

26.2.6 This represents amount payable on account of the company's bank loans taken over by the Government in the year 1990. BoD and the management of the Company believes that there was no interest as PECO was required to take-up only principal amount of the loan in its books. The legal advisor is also of the firm opinion that no markup is payable by PECO in respect of this loan. Furthermore, in the meeting held at Ministry of Finance in October 2010, Finance Division was instructed to re-examine the issue relating to Rs.100.00 million Loan and interest thereof, to confirm the contention of PECO and decision to be conveyed at its earliest.

26.2.7 The break up of Federal Government loan for compulsory separation schemes is as follows:

Loan for CSS	309,000	309,000
--------------	----------------	---------

26.2.8 This represents loan provided by the Federal Government of Pakistan to PECO to pay off the staff through Compulsory Separation Scheme vide letter No. 1(26) CF 111/93 dated 4th March 2002. The BoD and the management of the company do not agree with the markup claimed by GOP and is of the opinion that markup is not payable on this loan liability in the absence of any agreement for markup. The BoD and the management have taken legal opinion and the legal advisor vide his letter dated August 10, 2015 is also of the opinion that no interest is payable and the letter dated 4th March 2002 referred by the GoP, to substantiate claim of payment of interest @ 10% per annum against loan of Rs. 309.00 million was in the absence of perusal of relevant decisions / formative documents was misconceived and did not place any payment obligation on PECO. The letter was contrary to the decisions / documents and did not establish any liability to pay interest @ 10% per annum and that any alleged premium in the absence of agreement is void and unfair. In the absence of a contractual arrangement / agreement no interest can be claimed and in the absence of any agreement the alleged claim of interest tantamount to a penalty, which is construed as penal interest in nature and could not be granted unless loss/ damage proved through substantial evidence, which in the instant case will be all more difficult on account of handing over of land of Badami Bagh of PECO for sale/disposal. In view of the above, BoD and the management along with the legal advisor firmly believe that the alleged claim of GoP appears to be misconceived and without any basis and recommend that the aforesaid dispute should be referred to some impartial body for resolution under some Alternate Dispute Resolution (ADR) mechanism, where claims / counter claims of the respective parties be examined, considered and decided. Furthermore, in order to reconcile the principal and markup amounts with respect to Government of Pakistan Loans, a committee has been constituted as per the decision of Additional Finance Secretary. The management of PECO intends to pay back the Government of Pakistan Loans after the reconciliation of differences as per the records and facts available with the committee representatives.

26.2.9 The break up of Federal Government Bonds is as follows:

Interest bearing bonds	655,138	655,138
Interest free bonds	132,304	132,304
	787,442	787,442

26.2.10 These bonds were issued by the Federal Government against the liability of the company towards banks / financial institutions taken up by the Federal Government in the light of Federal Cabinet decision and S.R.O No. 823(1)/94 dated August 28, 1994. Against the principal amount interest bearing bonds and against accrued mark up interest free bonds were issued by the Government. The Government is liable to pay interest @ 12.43% per annum to the Banks / DFI regarding the interest bearing bonds. However, the BoD and the management of the Company do not agree with the markup claimed by the Finance Division and is of firm opinion that the Government is liable to pay any interest thereon, and that there was no agreement for charging any interest thereon. Furthermore, the legal adviser is also of the firm opinion that no markup is payable by the Company in respect of this loan in the absence of any specific markup agreement.(Ref: Note 27.1.1)

27 CONTINGENCIES AND COMMITMENTS

27.1 Contingencies

- 27.1.1** These bonds were issued by the Federal Government against the liability of the company towards banks / financial institutions taken up by the Federal Government in the light of Federal Cabinet decision and S.R.O No. 823(1)/94 dated August 28, 1994. Against the principal amount interest bearing bonds and against accrued mark up interest free bonds were issued by the Government. The Government is liable to pay interest @ 12.43% per annum to the Banks / DFI regarding the interest bearing bonds. However, the BoD and the management of the Company do not agree with the markup claimed by the Finance Division and is of firm opinion that the Government is liable to pay any interest thereon, and that there was no agreement for charging any interest thereon. Furthermore, the legal adviser is also of the firm opinion that no markup is payable by the Company in respect of this loan in the absence of any specific markup agreement.(Ref: Note 26.2.10)

The said confirmation from privatization Commission also states that initially there was no mention of specific interest rate on the loan amount, therefore, the mark up on the outstanding amount of loan to PECO was charged on the basis of annual rate of markup chargeable on cash development loans to Provincial Governments, corporations, local bodies etc. and capital outlays of Federal Government in commercial departments. The management of the company already in a meeting held on October 7, 2010 at Ministry of Finance's office to reconcile the principal and mark up amounts with respect to Govt. of Pakistan loans did not agree with the stance of Privatization Commission in respect of additional loan and mark up claimed. Privatization Commission has been instructed by the Ministry of Finance to review the calculation/treatment of a loan amounting Rs. 131.454 million and has been asked to come up with firm stance on the foregoing loan amounting to Rs. 131.454 million. Further, Privatization Commission has been instructed to sort out the issue of charging interest on VSS loan and Privatization Commission has been asked to come up with sound reason and logic for charging interest on the above loan. - 27.1.4** The Finance Division vide its letter dated June 2, 2018 for the fiscal year 2018-19 has claimed an amount of Rs. 2,703.822 million in respect of surcharge payable on Custom & Other Import duties (Ref: Note. 26.2.4) . However, the management of the company is of the opinion that no markup is payable in the absence of any agreement for markup. However, the management of the company is of the opinion that no markup is payable in the absence of any agreement for markup. The matter was taken up by the Ministry of Finance, in meeting held on October 7, 2010, to reconcile the principal and Mark up amounts with respect to Govt. of Pakistan loans, which has instructed the Finance Division to re-examine the issue relating to Rs. 100.00 million loan and interest thereof, to confirm the contention of PECO. 41.2.1 The matter of charging interest on these loans is disputed in respect of which reconciliation exercise is currently in progress through Ministry of Finance. The ultimate outcome of the matter cannot presently be determined. Hence these loans have been stated at cost.

41.3 Fair Values

The carrying values of the financial assets and financial liabilities approximate their fair values except for Government of Pakistan loans as disclosed in note. 26 to the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If the transaction is not based on market terms, or if a market price cannot be readily determined, then an estimate of future cash payments or receipts, discounted using the current market interest rate for a similar financial instrument, is used to approximate the fair value.

41.4 Financial Risk Factors

The Company has exposures to the following risks from its use of financial instruments:

- Credit Risk
- Liquidity Risk
- Market Risk

41.4.1 Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations, and arises principally from long term security deposits, loans and advances to employees, deposits, trade debts, other receivables and bank balances.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. To manage exposure to credit risk in respect of trade receivables, management reviews credit worthiness, references, establish purchase limits taking into account the customer's financial position, past experience and other factors.

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligation to be similarly effected by the changes in economic, political or other conditions. The Company believes that it is not exposed to major concentration of credit risk.

The carrying amount of financial assets represents the maximum credit exposure before any credit enhancements. The maximum exposure to credit risk at the reporting date was:

	2021	2020
	----- Rupees in "000" -----	
Long term investments	819	819
Long term security deposits - net of impairment	2,053	2,053
Trade debts - net of impairment	20,199	50,215
Advances	83	83
Trade deposits and guarantee margins	20,898	20,898
Bank balances	44,582	11,372
	<u>88,634</u>	<u>85,440</u>

The Company's most significant amount receivable is from NTDC, PESCO and Pump Well which is included in total carrying amount of trade debts as at reporting date.

For trade debts, internal risk assessment process determines the credit quality of the customers, taking into account their financial positions, past experiences and other factors. Aging of trade debts is regularly reviewed by the Board's Receivables Committee and necessary actions are taken in respect of overdue balances. The company assesses the credit quality of the counter parties as satisfactory. Bank balances are held only with reputable banks with high quality credit ratings. Loans and advances to employees are not exposed to any material credit risk since these are secured against their salaries. Geographically there is no concentration of credit risk. The maximum exposure to credit risk for trade debts at the reporting date are with customers within the country.

The credit quality of bank balances that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rate:

The aging of trade debts at the reporting date was:

Not yet due	-	-	-	-
Past due 1-30 days	-	-	13,006	-

	63,411	43,212	69,630	43,212

Based on past experience the management believes that no further impairment allowance is necessary as there are reasonable grounds to believe that the amounts will be recovered in short course of time.

41.4.2 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. Liquidity position of the Company is closely monitored through budgets, cash flow projections and comparison with actual results by the Board.

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier or at significantly different amounts.

41.4.3 Market Risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market price due to change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. The Company incurs financial liabilities to manage its market risk. All such activities are carried out with the approval of the Board. The Company is exposed to interest rate and currency risks.

(a) Currency Risk

Currency Risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The company is not significantly exposed to currency risk as the company does not maintain bank accounts in foreign currencies.

(b) Interest Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Significant interest rate risk exposures are primarily managed by a mix of borrowings at fixed and variable interest rates and entering into interest rate swap contracts.

The company's interest rate risk arises from short term cash finance facility. The company analyzes its interest rate exposure on a regular basis by monitoring existing facilities against prevailing market interest rates and taking into accounts various other financing options available. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Significant interest rate risk exposures are primarily managed by a mix of borrowings at fixed and variable interest rates and entering into interest rate swap contracts.

As at 30 June 2021, if interest rates on company's bank borrowings had been 1% higher / lower, the markup expenses would have been higher / lower by Rs. 998 million (2020: Rs. 878 million).

42 CAPITAL RISK MANAGEMENT

The Board's policy is to maintain an efficient capital base so as to maintain investor, creditor and market confidence and to sustain the future development of its business. The Board of Directors monitors the return on capital employed, which the Company defines as operating income divided by total capital employed. The Board of Directors also monitors the level of dividends to ordinary shareholders.

The Company's objectives when managing capital are:

- (i) to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, the Company's ability to continue as going concern is disclosed in note 2 to the financial statements, and
- (ii) to provide an adequate return to shareholders.

The Company manages the capital structure in the context of economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may, for example, adjust the amount of dividends paid to shareholders, issue new shares, or sell assets to reduce debt.

In line with others in the industry practices, the Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital employed. Net debt is calculated as total borrowings. Total borrowings comprise of long and short term loan and markup thereon. Total capital employed is calculated as equity as shown in the statement of financial position plus net debt. As at the balance sheet date, the gearing ratio of the Company was worked out as under:
